NEW PRODUCT ADVICE

Air Locker locking differentials:

Part No: Front: RD111 or RD121, Rear: RD23

Features:

- Provides 100% traction on demand without affecting on road drivability or driveline wear
- Vastly improved traction means less reliance on momentum, which reduces the likelihood of vehicle damage and environmental impact
- Easy, convenient operation allows the user to concentrate on the terrain without leaving the comfort and safety of the driver's seat
- Durable and strong - only the highest quality materials used in construction
- Simple yet effective design that employs minimal moving parts, thereby ensuring maximum reliability
- Thoroughly tested and proven design – trusted and used in over 80 countries around the world
- Easy installation and maintenance – no special tools, skills or additives required
